

## **QUALITY AND ENVIRONMENTAL POLICY STATEMENT**

As our strategic and long-term objectives, we define the economic stability and sustainable development of "Carbonsafe" JSC. We are convinced that effective process management and good work organization within the company will ensure the consistent quality of our services, as well as the protection of the environment.

In line with our quality policy, we strive to continuously meet the requirements and expectations of our clients by offering high-quality products and services, and by fulfilling client requirements in a timely and correct manner. For us, customer requirements are just as important as compliance with Bulgarian and European legislation.

The strategic, long-term, and operational objectives we set are achievable and measurable, and we inform all personnel about the importance of achieving them. We encourage each of our employees to contribute, within their competence and authority, to the achievement of these objectives.

We continuously develop mutually beneficial relationships with all interested parties, including clients, suppliers, business partners, our employees, and the public. We provide the necessary resources for the effective maintenance of the documented system, in accordance with the principles and requirements of ISO 9001 and ISO 14001, and we apply a process, systems, and evidence-based approach to its management.

In accordance with our scope of activities and considering potential environmental impacts, we strive to accurately identify environmental aspects and possible risks arising from the processes we manage and the activities we carry out.

Recognizing the global threats of environmental pollution, we set as a primary goal to contribute to its protection, aware of the responsibility we bear toward future generations.

Through the way we manage and control the processes we are able to influence, we aim to raise environmental awareness among all our employees and partners, in order to prevent and/or reduce possible adverse impacts on the environment.

We carry out continuous monitoring of environmental protection activities and improve the services we provide with the aim of creating services

Integrated quality and environmental management system BDS EN ISO 9001:2015 / BDS EN ISO 14001:2015  
PR 0501 Form Quality and Environmental Policy Statement / Version 2 / 08.08.2025

that have the least possible harmful impact on the environment and reducing the risk of pollution, while strictly complying with regulatory obligations.

We use natural resources efficiently, especially non-renewable energy sources, and accordingly plan to use more alternative energy sources, while effectively and efficiently improving environmental performance.

As the Executive Director of the company, I commit to my personal participation and responsibility for ensuring the necessary resources for: achieving the set objectives and the outlined policy, managing processes and continuously improving the effectiveness of the system; I also commit to reviewing this policy for adequacy annually and whenever changes occur.

In this regard, a key instrument and support for implementing the outlined policy and achieving our long-term objectives is and will be the documented and implemented management system, in accordance with the international standards ISO 9001 and ISO 14001.

This policy is accessible to every employee, as well as to all external interested parties and the public, and at any time and upon request it will be provided for review.
