

Summary of the changes in 2-PDD-CS-BG-NORTH_v2.1_TRCheck_CS230626

Section	Change Introduced	Corrected in
2.1 Project Description	Expanded clarification of eligible practices change description	CS230626
3.1.1 Regional Allocation of Farms	Added clarification for farms spanning North and South projects	CS230626
3.2.8. Leakage Considerations	Added reference to Section 9.1.1. Plausible leakage pathways.	CS230626
4.1.7. Accounting for Project Emissions	3.42 coefficient for fuel consumption - derivation and unit clarification	CS230626
4.1.10. Leakage and yield safeguards	Added reference to Section 9.1.1. Plausible leakage pathways.	CS230626
4.3.2. Practice package and eligibility (field level).	Pre-existing practices eligibility clarification added	CS230626
4.3.8. Leakage, production safeguards, and co-benefits.	Added reference to Section 9.1.1. Plausible leakage pathways.	CS230626
5.1. Eligibility Criteria.	Clarification added (+3% tolerance refers solely to the maximum allowable size of an individual plot.)	CS230626
5.2.6. Spatial and depth boundaries.	Justification of the spatial extend added	CS230626
5.3.10. Practice Bundle Assessment	Organic fertilization barriers added	CS230626
5.5. Financial Additionality	Cost-benefit analysis – Assumptions added	CS230626
7.1. Carbon Sequestration Calculation.	3.42 coefficient for fuel consumption - derivation and unit clarification	CS230626
7.1.1 Quantification of Nitrogen-related Emissions	Clarification of the units used in calculations (e.g., kg N ₂ O-N, kg N ₂ O, kg CO ₂ e)	CS230626

Section	Change Introduced	Corrected in
8.3.3. Land Buffer or Risk Reserves	The wording in this section has been updated to avoid ambiguity regarding the purpose and treatment of the retained reserve.	CS230626
10.1.5. Input Efficiency	EF _{crop} – crop-specific emission factor (tCO ₂ e/t crop) clarification added	CS230626
10.6.2. Land Tenure and Legal Safeguards.	Treatment of Lease Expiry and Change of Land Operator added to this section	CS230626
10.7.2. Practical Examples of Flexibility.	Clarification added to the interaction between the temporary fertility-input flexibility provision and the project accounting framework	CS230626
15.2. Estimated Emission Reductions or Removals	Timeframe for key assumptions corrected	CS230626
15.4. Long-term viability.	Numbers correction in long-term projections for verified carbon credit issuance	CS230626
